

# N-CASA AUTOMATED SECURITY AUDIT REPORT

Network Configuration Automated Security Auditor — Executive Audit Snapshot

Report ID: RPT-AUD-20260923-827F

Audit ID: AUD-RPT-FLOW

Generated Date: 2026-09-23 05:24:44 UTC

Compliance Framework: CIS

Audit Status: COMPLIANCE\_COMPLETE

Report Version: 1.0

## MANDATORY SAFETY NOTICE & AUTHORIZATION REQUIREMENT

All remediation commands contained within this report are proposals only. They were NOT automatically executed on network devices. Manual validation, peer review, and authorization are required prior to applying any configuration changes to production environments.

## 1. EXECUTIVE SUMMARY

| METRIC                             | VALUE | METRIC                | VALUE |
|------------------------------------|-------|-----------------------|-------|
| Files Audited                      | 0     | Controls Evaluated    | 1     |
| Controls Passed (PASS)             | 1     | Open Findings (FAIL)  | 0     |
| Scope Limitations (NOT_VERIFIABLE) | 0     | Remediation Proposals | 0     |

## 2. COMPLIANCE EVALUATION SUMMARY

Framework Breakdown

| FRAMEWORK | PASS | FAIL | NOT_VERIFIABLE |
|-----------|------|------|----------------|
| CIS       | 1    | 0    | 0              |

Detailed Compliance Control Results

| CONTROL ID | FRAMEWORK | CONTROL TITLE                 | SEVERITY | STATUS |
|------------|-----------|-------------------------------|----------|--------|
| CIS-1.1    | CIS       | Enable Password<br><REDACTED> | HIGH     | PASS   |

3. ACTIONABLE SECURITY FINDINGS

No security compliance failures detected.

4. ASSESSMENT LIMITATIONS (NOT\_VERIFIABLE)

All evaluated security controls were deterministically verifiable.

5. PROPOSED REMEDIATION STEPS

No remediation proposals generated.

7. DEVICE & CONFIGURATION INVENTORY

| FILE NAME | VENDOR | DEVICE TYPE | CONFIDENCE | METHOD | LINE COUNT |
|-----------|--------|-------------|------------|--------|------------|
|-----------|--------|-------------|------------|--------|------------|
